

## *“Welcome to my unique country”*

Each country holds things, people, events that are not known in other countries. Very often it's something surprising, unique and valuable.

In this project, students present their country from their own perspective.

They describe in English from 4 to 5 things, people, events related to their country. They can add a song, some photos, a short movie or an interview... Then share this information with students from abroad.

The project ends with a quiz.

Students perform tasks and answer questions related to a foreign country.

Of course there is also a prize ... e.g. a hand-made cup or diploma.
